## Law enforcement agencies increase sobriety checkpoints during DUI Enforcement Month

November is Driving Under the Influence Enforcement Month for many law enforcement agencies, and this observance will result in more sobriety checkpoints in Monterey County. The following is information submitted by the Presidio of Monterey Police Department to increase awareness about DUI incidents.

Drunk and drugged driving statistics

- ❑ 2,048 Californians were killed in alcohol-involved collisions in 1991.

- ❑ More Californians die from alcohol-related incidents than from any other accidental cause of death.

- ❑ 55,779 Californians were injured in alcohol-involved collisions in 1991.

- ❑ California law enforcement officers arrest about 300,000 persons a year for

driving under the influence. For many, it is their second or third offense.

- ❑ Each alcohol-related traffic death costs society approximately \$330,000. Each non-fatal traffic injury costs a little less than \$5,900.

- ❑ Drivers under age 21 have the highest rates of alcohol-involved fatal crashes.

- ❑ The greatest number of fatal motor vehicle accidents for 16 to 19 year olds occurred at a much lower level of blood alcohol concentration than for those in older age groups. BAC is the amount by weight of alcohol in a volume of blood.

- ❑ Drivers age 16-24 represent approximately 17 percent of all licensed drivers but are involved in about 36 percent of all fatal alcohol-related crashes.

National drunk driving statistics

- ❑ In the last 10 years, 200,000 people died in alcohol related automobile accidents.

- ❑ Each week 385 people are killed in alcohol related crashes.

- ❑ Over 65 percent of all fatal single car accidents are alcohol related.

- ❑ Every year, 650,000 persons are injured in alcohol related crashes; 65,000 of those people suffer serious injuries.

- ❑ More than half of all alcohol related fatalities occur in single vehicle crashes.

From midnight to 4 a.m., about 80 percent of all fatally injured drivers had been drinking.

- ❑ Alcohol related crashes are the leading cause of death for young Americans, between ages 16-24. Each day 14 teenagers die and an additional 360 teenagers are injured in crashes.

When hosting a party

- ❑ Have non-alcoholic beverages available for party guests.

- ❑ Use a jigger when serving alcoholic beverages rather than pouring straight from the bottle.

- ❑ Find an alternative transportation for intoxicated guests.

When going to a party

- ❑ Have something to eat before consuming alcoholic beverages.

- ❑ Eat high protein foods, such as meats, cheese, or eggs, which will stay in your stomach longer and slow the absorption of alcohol into your system. Remember **only time** will eliminate alcohol from your body.

- ❑ Employ the Designated Driver program. Select one member of your group as the one who drives and consumes only non-alcoholic beverages.

For more information, call the Presidio of Monterey Police Department Crime Prevention Officer Preston Proctor at 242-7868.

# From the desk of the Garrison Commander

## Commander applauds Make A Difference Day volunteer efforts

**Army Col. Peter Dausen**  
**Garrison Commander**

Hello all,

I want to take this opportunity to highlight one of the most terrific volunteer efforts I have seen! And this has been for the second year running; MAKE A DIFFERENCE DAY.

Make a Difference Day is a nationally celebrated day where volunteers give of their time and efforts to fix things or help others around their community. And what did our volunteers do? Well, they cleaned up all the trash on Highway 1 from Fremont exit to the Main Gate. They cleaned up all the environs around Martinez Hall on the former Fort Ord to get it ready to be the Veterans Transition Facility. They cleaned up the quarters on the former Fort Ord that will be used to support our homeless. They cleaned up the gardens of senior citizens, conversed

with nursing home elderly and infirm in their 'native tongue' like Russian or Korean. They cleaned up the Col. Durham Chapel. They cleaned and painted community signage, spruced up our DLIFLC Cemetery, had a bake sale and organized a fun run/walk, and many, many other projects too numerous to mention!

What motivated all these volunteers to do it? As one of the volunteers related to me; "It was fun; helping others gives you such a good feeling inside."

A spectacularly successful volunteer day like this just doesn't happen; it takes lots and lots of phone calls, canvassing, organization and plain old hard work! Theresa Matthews and her band of volunteer coordinators were the ones who put

the programs together and organized the work force. What more can be said; it was a fantastic, fantastic effort! You all really did make a difference!

And with this year's efforts even greater than the last, what's the next year going to bring? I'm sure it will be even bigger and better; reserve your part of the action now. The sky's the limit, and best of all we are doing it for each other! See you next year! Thanks for listening.

## Army leaders send Veterans Day message

Following is a joint message from Secretary of the Army Louis Caldera and Army Chief of Staff Gen. Eric Shinseki:

On Veterans Day, as our nation pays tribute to the American men and women who have served in our nation's armed forces, we take this opportunity to salute and so honor you, the soldiers serving in the Army today. Your determination, your readiness, and your unique ability to go where you are needed at the time you are needed are potent symbols of liberty, justice, and hope for freedom loving people the world over.

Since the Berlin Wall fell, you have deployed more than 30 times into harm's way around the world. More than 146,000 of you are now stationed or forward deployed in about 70 countries. Whether serving our nation at home or abroad, on active duty, in the army Reserve, in the army national guard, or as an army civilian, you constantly amaze

us with the strength of your dedication and your morale.

**Each day you serve, you voluntarily forego comfort and wealth. Often, you face hardships and sacrifice. Sometimes you confront danger and face death in defending the nation's security. By your actions, you live the Army core values: loyalty, duty, respect, selfless service, honor, integrity, and personal courage.**

To all of you "on point for the nation," whether far from home or here in the United States, we say "thank you" for your contributions and your countless sacrifices. It is an honor to serve with you.

On this, the last Veterans Day of the 20th century, we pledge you our tireless efforts to ensure that you remain the world's preeminent war fighting land force, the most esteemed institution in America, and the most respected army in the world.

## America Reads program book drive ends Nov. 22

The Monterey County America Reads Consortium first children's book drive continues until Nov. 22. The goal is to collect books to give each child who is tutored through the America Reads project in kindergarten through third grade.

America Reads' focus is on increasing literacy of these young students through one-on-one tutoring.

Now, as the U.S. Department of Education and educators throughout the country continue to stress the link between school and home environments, the program is seeking to encourage further reading practice and positive reinforcement by giving children books to take home with them.

Because the program tutors a group of students with diverse backgrounds, it is collecting multi-cultural books, as well as those written in Spanish and other languages prevalent in the county.

Drop off new or used books appropriate for kindergarten through third grade and in good condition at the commissary on the Presidio of Monterey Annex or at the Presidio of Monterey post exchange.

Donations will not only help children learn to read, but can also earn one free admission pass to the Steinbeck Center for the donor.

For more information about the book drive, to make a financial donation for the purchase of books, or to volunteer as tutor, call the Panetta Institute at 582-4200.

# Preparing for the holidays

## Crime Prevention offers seasonal safety tips

The Presidio of Monterey Police offer the following safety tips for the upcoming holiday season.

Avoid the holiday rush – shop early. This tip may be more effective than the rest of the holiday tips. Shop before the rush starts or during uncrowded hours.

Use the “buddy system” and shop with a friend. Criminals prefer victims who are alone. Ask if the store can provide an escort to your car.

Park near the store and in well lighted areas. When you shop at night, park near the store or mall entrance and in well traveled areas.

Carry very little cash. Use credit cards or checks whenever possible. Store your wallet in an inner pocket of

your clothing. Don’t keep valuables in your purse or back pocket.

Don’t advertise your valuable purchase. Place packages in the trunk of your car before your arms become full. In the event you are being watched, move your car to another spot. Thieves watch for shoppers placing valuables in unattended cars.

Use caution when approaching your vehicle. Stay alert and have your keys ready in your hand. Watch out for anyone hiding in or loitering near your car.

Drive extra carefully. Keep a safe

stance from the car in front of you. Allow an impatient driver to pass before they become hostile.

Check the security of your home. A well secured home with a lived in appearance watched by neighbors will be avoided by burglars. Avoid displaying Christmas presents in view of passersby.

Don’t advertise your new gifts. Crush all containers and boxes before throwing them away. Uncrushed cartons set out with your trash may attract a burglar to your new TV, stereo or other appliances. *(Courtesy of Presidio of Monterey Police and the California Crime Prevention Officers Association)*

### Air Force releases testing dates

In keeping with the Chief of Staff of the Air Force Enlisted Promotion Testing initiatives, the testing windows for 2000 have been shortened for the second consecutive year.

Although the weighted airman promotion system testing windows are smaller for every cycle, this change does not affect the promotion eligibility cutoff date for any grade, according to Air Force Personnel Center officials here.

The testing dates for 2000 are:  
— Cycle 00E6 (technical sergeant), Feb. 1 to March 15  
— Cycle 00E7 (master sergeant), Feb. 1 to March 15  
— Cycle 00E5 (staff sergeant), April 1 to 30  
— Cycle 01E8 (senior master sergeant), Nov. 1 to 10  
— Cycle 00E9 (chief master sergeant), Sept. 5 to 8

Rescheduling must be kept to an absolute minimum to ensure everyone can be tested within the testing window. Individuals who will be on temporary duty during the testing window must test prior to their departure.

## President approves changes to Manual for Courts Martial

By Paul Stone

American Forces Press Service

WASHINGTON – President Clinton recently signed an executive order making four significant changes to the Manual for Courts-Martial.

The new rules are designed to bring the military court system in line with changes made in federal laws in recent years, according to Air Force Col. Robert Reed, associated deputy general counsel in the Office of the General Counsel. The changes will be effective for any crimes committed after Nov. 1, 1999.

The four changes:

□ Allow evidence to be presented during the sentencing phase of a trial that a violent crime was a hate crime.

□ Provide special protections and procedures for cases in which there are allegations of child abuse and children are called to testify.

□ Provide that most statements between a patient and psychotherapist are privileged and cannot be entered into evidence.

□ Create the offense of “reckless endangerment” as a crime under the Uniform Code of Military Justice.

Reed said the changes have been under consideration since 1997 and are the result of an annual Department of Defense-level reviews of the Manual for Courts-Martial. The Manual for Courts-Martial is the guiding force for prosecuting crimes in the Uniform Code of Military Justice.

The reviews are conducted by the Joint Service Committee on Military Justice. The committee includes a representative from each service, DOD’s Office of the General Counsel and a member from the Court of Appeals of the Armed Services. After a lengthy review process, drafting of proposed changes and coordination with other federal agencies, the changes are then submitted to the President for his approval, Reed explained.

Reed said the hate crimes provision

specifically states that a judge may consider whether an offense was “motivated by the victim’s race, color, religion, national origin, ethnicity, gender or sexual orientation” when weighing punishment for a violent crime.

“Federal sentencing guidelines include this provision, and we thought it was appropriate the military court system include it as well,” he said. “During the sentencing phase of trial, prosecutors will now be able to present evidence that the crime was a hate crime in hopes of obtaining a stiffer penalty.”

The special protection for children allows them to testify from a remote location, usually using a two-way closed circuit television system. Reed said this is not an automatic protection but will be determined by judges on a case-by-case basis.

“This protection is most likely to come into play when a judge determines that a child who was a victim of abuse would have difficulty testifying in front of the accused or would be traumatized by the event,” Reed explained.

Additionally, instead of the child testifying from a remote location, the change also allows for the defendant to be excused from the trial while the child is testifying. But Reed emphasized that the request to be excused must come from the defendant.

“Both avenues are designed to reduce the possibility of further trauma to children and are similar to provisions applied in most civilian courts,” Reed said.

The protection for communication between a patient and psychotherapist is an extension of other communication protections already recognized by the military court system.

“The military recognizes a privilege for communication between attorneys and clients, clergyman and clients and husbands and wives,” Reed said. “But up to now there hasn’t been one for those seeking psychotherapy.”

He emphasized, however, that the

The Sailors Marine Automated Registry Transcripts program is available to document American Council on Education recommended college credit for military training and occupational experience. SMART is an academically accepted record that is validated by ACE. The primary purpose of SMART is to assist service members in obtaining college credit for their military occupations, training courses and credit exams.

Eventually SMART will completely replace the DD295, the Application for Evaluation of Learning Experiences during Military Service, which is the form currently submitted to colleges by Sailors and Marines to verify their military experiences.

To obtain your personal copy, order an official copy, or get more information, stop by the POM Education Office in Bldg. 630, or call 242-5325 for more information.

## Changes, from page 8

protection is limited to psychotherapist-client communication that might be entered into courts-martial proceedings.

"This is really intended as a victim's rights protection," he explained. The goal, he said, was to give crime victims the freedom to seek psychological counseling without concern that what they discussed would be brought out in court.

There is no privilege for routine psychotherapist-client communication that could affect administrative actions. Other exceptions include:

- When the communication is evidence of spouse or child abuse and neglect, or when one spouse is charged with a crime against the other.

- When a psychotherapist believes the patient's mental or emotional

condition makes the patient a danger to any person, including the patient.

- When the communication indicates the patient is considering committing a crime in the future.

- When necessary to ensure the safety and security of military personnel, family members, property, classified information or the accomplishment of military missions.

"While recognizing there are unique circumstances in which confidentiality should prevail, this change also recognizes the special needs of the military and our obligation to protect national security," Reed said.

The addition of "reckless endangerment" as an offense of the Uniform Code of Military Justice stems from a case involving an HIV-positive

service member who was charged with having unsafe sex with others.

"In that case, there wasn't any one offense under the UCMJ that really fit the circumstances," Reed said. "So based upon that case this offense was added, recognizing that there might be other scenarios in which people act recklessly and place people in danger of death or grievous bodily harm.

Under this change, a prosecutor will not have to prove that harm or injury took place, only that the defendant acted in a way to place a person in jeopardy of being harmed or injured. It is an offense also found in most state criminal codes.

Local commanders who have questions concerning these changes can call the Staff Judge Advocate office at 242-5081.

## Want to place an ad?

### Explanation of classified ad policy

The following information is provided to explain and clarify policy for individuals who would like to publish classified ads in POM-Mart.

Military members, retirees and Department of Defense civilian employees with valid identification cards are authorized to place classified ads in the Community News.

To place an ad in the Community News, complete the form on the back page of the Community News and deliver it to the Public Affairs Office, Building 614, Room 142, Presidio of Monterey, 93944. Ads may also be sent via e-mail to the editor at [wright@pom-emh1.army.mil](mailto:wright@pom-emh1.army.mil). Individuals should be sure to include all information requested on the form, including the category of the ad.

Daytime work telephone numbers are for use by Community News staff only; they will not be listed in ads. Individuals may place up to three ads per household in ~~different categories per issue~~ **Each ad should not exceed 35 words; itemized property for sale should be valued at least \$10.**

The Community News staff will make every effort to publish ads accurately, but we reserve the right to edit ads to meet readability, format and space requirements. Report typographical errors to the editor, and they will be corrected in the next available issue.

Acceptable classified ads include items in the categories of Autos; Motorcycles; Trucks, Vans, Sport, RVs; Wanted; Sports Equipment; Entertainment, Music Items; Computers and Accessories; Lost and Found; Miscellaneous; Pets or Household Items. Items must be for one-time sale or for free – not for a profit-sharing venture of multiple items. The Community News does not take responsibility for items advertised.

Classified ads for businesses, rentals, free information, help for hire or tutoring, or illegal items are not authorized. Each ad will be published in **three** consecutive issues unless it is renewed or cancelled.

The date the ad was first published is printed in parentheses following each ad. For example, ads dated (10-22) will continue to run through the Nov. 19 issue. Classified ads may be renewed or cancelled by phone; however, new ads, additions or major changes to ads must be done in writing before the Wednesday deadline for the next issue. **Deadlines are generally a week and a half prior to the next publication.** When calling in reference to an ad, be sure to identify the category, first few words of the ad, phone number as printed and the date following the ad.

**Deadline for the Nov. 19 issue is Wednesday; deadline for the Dec. 3 issue is Nov. 24.**

Please refer questions concerning this policy to the editor of the Community News at the Public Affairs Office, at 242-5104 or 242-6426.
